

# COLLOQUIUM ON GALOIS GEOMETRY

Friday, December 2, 2011

9h30: welcome coffee

10h00: Anamari Nakic (University of Zagreb)  
*Kramer-Mesner with tactical decomposition*

11h00: Marcella Takáts (Eötvös Loránd University Budapest)  
*Exploring new directions*

11h45: lunch

13h15: John Sheekey (University College Dublin)  
*Subspaces of matrices with restricted rank*

14h15: Klara Stokes (Universitat Rovira i Virgili, Tarragona)  
*The numerical semigroup of combinatorial configurations*

15h00: coffee

15h30: Frédéric Vanhove (Universiteit Gent)  
*On geometry and distance-regular graphs*

16h30: Jan-Christoph Schlage-Puchta (Universiteit Gent)  
*Additive combinatorics in vector spaces over large finite fields*

ORGANISERS:

Jan De Beule and Leo Storme

GHENT UNIVERSITY  
DEPARTMENT OF MATHEMATICS  
KRIJGSLAAN 281, BUILDING S25  
EMMY NOETHER LECTURE ROOM  
9000 GENT  
BELGIUM

Participation, lunch and coffee are free, please register at [jdebeule@cage.ugent.be](mailto:jdebeule@cage.ugent.be),  
before November 20, 2011
